Pin 5 Pin 4	1	White/Blue Blue	1	White/Blue Blue
Pin 1 Pin 2	2	White/Green Green	2	White/Orange Orange
Pin 3 Pin 6	3	White/Orange Orange	3	White/Green Green
Pin 7 Pin 8	4	White/Brown Brown	4	White/Brown Brown

3 Pair 2 Pair

#### 2. Step 2:

Strip and remove cable jacket as recommended length, fold braid shielding back over jacket. Leave the foil on pairs intact, remain the pair foil as suggested length.

### 3. Step 3:

Refer to color coding on labels, allocate the pairs according to color coding in sequence, use punch down tool to press each conductor and trim excess length until all pairs are terminated.

Place grounding clip on the cables, screw on the bolt until the cables are fastened to secure grounding between cable and panel. Use supplied cable ties to tight up the cables.
