

SMB SHELF MOUNTING BRACKET, UNIVERSAL FIT, DUAL MOUNT
 SWAPPABLE FOR LARGE OR SMALL COMPONENTS

SCP PART#:
HCC-SMB

PRODUCT SUMMARY

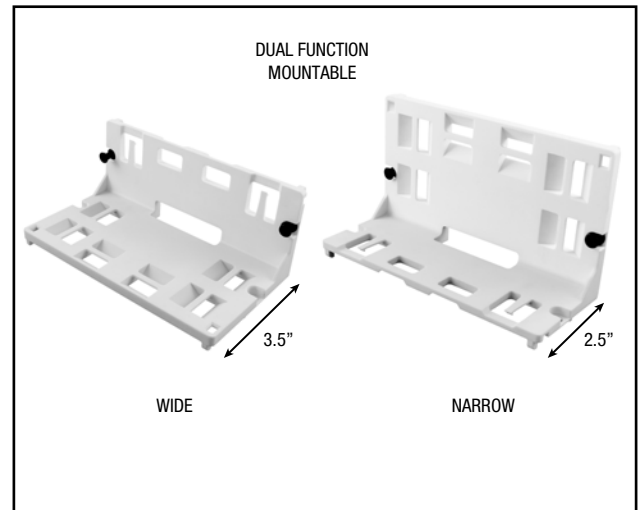

SCP's Shelf Mounting Bracket increases the functionality of HCC Series plastic or metal distribution enclosures. HCC-SMB is used to support large bulky components up to 6 lbs. HCC-SMB shelf features universal mounting tabs and push pins to fit all brands. HCC-SMB allows ability to manage interior capacity by positioning heavy or bulky components to strategic location within enclosure to gain optimum path for termination of cables and electric power cords.

HCC-SMB shelf mounting bracket features a dual mounting shelf surface. Choose larger surface for bulky wifi gateways or smaller surface for modems, hubs, or streaming devices by simply placing push pins in desired holes for best functionality. Multiple slotted design allows for easy attachment to bracket using zip tie or velcro.
