# Landscape Speaker Cable Series

The SCP Landscape/Direct Burial Speaker Cable series are the perfect complement to your high performance landscape or outdoor speaker systems. These cables are industry known for reliable high performance in all outdoor environments from Scandinavian cold to the Arizona desert heat.

## SCP Landscape/Direct Burial Series Speaker Cable features:

- Manufactured exclusively for high performance direct burial/outdoor installations
- Superior to competitor cables in longevity, durability, water permeability, and all environmental factors
- Waterproof construction – Gel filled or Water Block Tape
- Retains flexibility and strength in harsh environments
- High strand count Oxygen Free Bare Copper Conductors for superior power and performance
- Balanced twisted pair construction
