

28" DEEP EXTENSION FRAME 1.25" INCREASE INTERIOR DEPTH

SCP PART#: **HCC-P28-DFE**

PRODUCT SUMMARY

HCC-P28-DFE frame increases interior depth of Media Enclosure by 1" to gain more interior space. Adding DFE frame increases interior depth from 4.00" to 5.25" clearance inside enclosure.

This optional frame increases inside depth for SCP Low Profile Series Enclosures. Ideally used to optimize interior space for larger components, required by major cable companies. Cable company equipment such as wifi gateway towers, larger modems etc. Streaming devices and future proofing technology make the DFE frame an integral part for today's homes.

PRODUCT DIMENSIONS

SIZE: 33.25"H x 18.50"L x 1.00"W

FEATURES & BENEFITS

- Increases interior depth by 1" for more clearance
