

## RoHS 2 Certificate of Compliance

31 December 2019

Dear Valued Customer,

Structured Cable Products Inc ("SCP") and our key suppliers support the European Union Directive 2011/65/EU (RoHS 2) that restrict the use of certain hazardous substances in the design and manufacture of Electrical and Electronic Equipment.

### RoHS 2 Substances and Limits

The substances currently regulated by the RoHS 2 Directive are listed below:

- Lead (Pb)
- Mercury (Hg)
- Cadmium (Cd)
- Hexavalent chromium (Cr(VI))
- Polybrominated biphenyl (PBB) flame retardants
- Polybrominated diphenyl ether (PBDE) flame retardants (including Deca-BDE)

The maximum allowable concentration is 0.1% by weight in homogeneous material. For Cadmium, the maximum allowable concentration is 0.01% by weight in homogeneous material.

To the best of our knowledge, SCP products are not intentionally manufactured or formulated with substances exceeding the above threshold.

Compliance is determined from information and sources which SCP believes are reliable and from random sample testing of the above or similar products by outside accredited testing laboratories. The provided material content data, if applicable, is not to be considered a warranty or quality specification. Product users are responsible for determining the applicability of RoHS 2 and other related environmental regulations based on their individual usage of the final product.

### Independent Testing for RoHS 2 Compliance

Testing of each SCP product is not feasible nor is it practical. Providing test data or material declarations to prove compliance is not required in the legislation enacted by the EU Directive. SCP or SCP representatives have submitted samples of product families for independent compliance testing. Testing will continue on a random basis to verify ongoing compliance. Suppliers have been asked to supply evidence of compliance for materials purchased by SCP on a periodic basis to ensure ongoing compliance.

Should you have further questions, please do not hesitate to contact us.

Sincerely,

Andrew Restivo  
International Sales Director
